Intro: C – G - D

(verse 1)

**G**                    **D**  
I have found my reason to sing  
                  **Em**                    **C**                    **G**  
Cause I believe that You laid down everything  
**G**                    **D**  
I have found my safe place to come  
                  **Em**                    **C**                    **G**                    **D**  
where I know You comfort me and I feel my heart is free

(chorus)

**G**                    **D**  
I can shout cause You fill my heart with joy  
**Em**                    **C**                    **G**                    **D**  
And the chains that held me bound Are broken and no more  
**G**                    **D**  
And I can dance cause You hold me in Your hand  
**Em**                    **C**                    **G**                    **D**  
Now my heart is free Cause You gave Your life for me

And You make my life complete
