

Watch Over Us

© Aaron Logan 2009

(verse 1)

You're the comfort to the comfortless, I know
The defender of the helpless and alone
Even the sparrow that falls to the ground
Nothing goes unnoticed with You

You're the champion for the weak and the poor
You're the father to the orphaned and alone
And every prayer of our hearts You know
Nothing goes unnoticed with You

(chorus)

You watch over us
You watch over us
You watch over us with love

(verse 2)

You're the strength for every weakness that we know
You take hopelessness and fill us up with hope
Even the sparrow that falls to the ground
Nothing goes unnoticed with You

(bridge)

Oh in Your people, Lord You delight
You bring Your presence to fill up our lives
You are the saving hope of the world

And it's Your children, Lord You desire
Bringing salvation, giving Your life
You are the saving hope of the world
